Note:
You may summarize hours of a class term.
For example: if you teach a six-week, 1 1/2 hour Intro to Nose Work class, you may list the start date and put the total number of hours for the class term (9 in this example) under the correct heading "Class Teaching Hours". See below example listed in blue.

We would also like you to track your CNWI course days, but they are not included in the total count of hours. Please just list the date, location, and write Day 1, Day 2, etc.

Date	Topic or Class level	Location or Facility	City	State	CNWI Course Days (Please list as Day 1, Day 2)	Training Strand (Introduction workshop with founder, odor, exterior, and vehicle)	Observation Hours (you attended class, wkshp or participated in practice group)	Private Lessons (privates for behavior modification or extra help for class students)	Led practice group, shelter program, or apprenticed (facilitator/helper of session - not necessarily an official class)	Group Class Teaching Hours (as lead and/or co-instructor)	Description and/or comments
